

Forus.

Forus helps you get your medication faster and more affordably

We work with your doctor to make getting your prescriptions easier.

Whether it's a common medication or a specialty drug, when your doctor sends your prescription to Forus, we handle the insurance paperwork, find savings programs, and make sure your medication gets to the right pharmacy.

You can rely on Forus to handle every step of the access process — so you can focus on what matters most: **your health.**

Insurance benefits verification

Prior authorizations and appeals

Payer coordination and status calls

Patient access program enrollment

Pharmacy coordination

Bottom line:

You start your treatment sooner without the hassle of navigating the access and approval process.

We're here for you. Call or text anytime.

Forus will reach out to you via text message once we receive your prescription to keep you updated every step of the way. We recommend saving our contact so you never miss an update.
